When will the 20 MW battery storage system start working?

The 20 MW battery storage system, installed at the 33 KV substation of BSES Rajdhani Power Limited (BRPL), is expected to start functioning by the end of March or early April. Of the 12 liquid-cooled batteries planned for the project, nine have already been installed, while the remaining three will be in place shortly, BSES confirmed.

Why is India launching a battery energy storage system?

In Detail : India has approved its first commercial standalone Battery Energy Storage System (BESS) project, marking a milestone in the country's progress towards clean and renewable energy.

How much power will the kilokri substation deliver?

Strategically located at the 33/11 kV Kilokri substation, it will deliver up to four hours of reliable daily power, two hours each during the day and night, directly benefiting over 1,00,000 residents in the densely populated Kilokri area in south Delhi, said discom BSES.

How many hours a day can a energy storage system deliver?

"The energy storage system is designed to deliver up to four hours of reliable daily power--two hours each during the day and night--directly benefiting over one lakh residents in the densely populated Kilokri area in south Delhi," it stated.

GEAPP, in collaboration with IndiGrid and AmpereHour Energy, assisted BSES Rajdhani Power Limited (BRPL) in commissioning the 20 MW/40 MWh BESS project in New Delhi at a record ...

"The 20 MW/40 MWh BESS was delivered on a turnkey basis under a long-term battery energy storage capacity agreement (BESPA) with BRPL. Installed and commissioned in just 11 ...

The Delhi Electricity Regulatory Commission (DERC) issued regulatory approval to a 20 MW/ 40 MWh BESS at the 33/11 kV Kilokari sub-station belonging to BSES Rajdhani Power Ltd, the ...

On Wednesday, Delhi inaugurated a groundbreaking 20-MW battery energy storage system at the Kilokari substation, marking it as South Asia's largest utility-scale energy storage...

The 20 MW battery storage system, installed at the 33 KV substation of BSES Rajdhani Power Limited (BRPL), is expected to start functioning by the end of March or early April.
