Gotion High-tech showcased multiple energy storage products, with its newly released Qianyuan Smart Storage 20MWh battery energy storage system making its first public appearance. ...

Gotion unveils 20MWh battery system at SNEC 2025, earning global safety certs and 3GWh orders--powering the future with smart, scalable energy storage.

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

The Qianyuan Smart Storage 20MWh system marked its first external exhibition debut at SNEC 2025, where a product launch event and certification ceremony were held.

Leveraging airports' natural advantages for photovoltaic installation, we developed a high-efficiency, zero-emission green airport solution combining photovoltaic power, energy storage, ...

Today, Gotion officially launched a new 20MWh single-cabinet battery energy storage system on its official channels.

Because airport photovoltaic energy storage systems solve two critical challenges - reducing carbon footprints and slashing energy bills. Let's unpack how this works (and why your next ...
