Power distribution units provide multiple outlets to power voice and data equipment connected to a network rack or cabinet. Select units offer meter monitoring for overload protection, maintenance ...

These solutions integrate various smart technologies to create a connected home environment that allows homeowners to manage and optimize energy use effectively.

Smart Power Distribution Unit technology enables real-time monitoring, remote control, and efficient energy management in modern telecom cabinets.

Explore how energy-efficient outdoor telecom cabinets reduce power consumption, enhance sustainability, and lower operational costs for modern telecom networks.

Power conditioning and distribution cabinet that offers the benefits of a custom-tailored system, with the convenience and cost savings of a pre-packaged, factory-tested system.

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

The HJ-SG-D01 Outdoor Communication Single Warehouse Cabinet is designed to support the integration of renewable energy sources such as photovoltaic modules and wind turbines.

Whether for remote telecom stations, solar hybrid systems, or industrial automation units, we provide fully assembled cabinets with integrated power, cooling, and control systems for plug-and-play ...
