Rack systems are strategic assets that play a key role in system uptime and data center availability and reliability. They can be counted on to be flexible and adaptive to accommodate rapid change. They ...

Deploy fast with the Eaton SRP-R-C25 Modular Data Center. Includes 44U rack, 25kW cooling unit, and remote monitoring. Ideal for edge and AI environments.

This SmartRack<sup>®</sup> Modular Data Center is composed of IT rack and cooling enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and ...

Buy a Eaton SmartRack Pre-Configured, Self-Cooling Modular Data Center - 2x 44U Racks, 25 kW AC Unit or other UPS Battery Backups at CDW

Featuring three 44U IT racks and two high-efficiency 25 kW in-row cooling units, this configuration supports 132U of rack-mounted equipment within a closed-loop environment. The additional service ...

This SmartRack<sup>®</sup> Modular Data Center is composed of IT rack and cooling enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and ...

From data centers to networking setups, the importance of efficient and reliable rack equipment cannot be overstated. Whether you're looking to optimize space utilization or enhance performance, ...

Data center power density, measured in kilowatts (kW) per server rack, is crucial for optimizing design and operations. Higher density allows more computing power in a smaller footprint, ...
