-----

Fed up with the hassles of deploying cables in remote areas or temporary setups? Say hello to the VIGI Solar Power Security Solution. It offers flexible deployment, remote maintenance capabilities, and ...

Protection level: IP67; TVS 4000V lightning protection, surge protection, and spike suppression, in compliance with GB/T17626.5 level 4 standard.

4-in-1 SOLAR POWER SYSTEM- The integrated solar panel, lithium battery, solar charge controller, and bracket provide a simple and efficient power solution for security cameras and ...

The integrated solar power system, integrating solar panels, maximum power point tracking (MPPT) charging controller and mounting brackets, provides stable power supply for the front-end data ...

Improves the conversion efficiency of light with a Grade-A monocrystalline silicon solar panel, ensuring a long lifespan of at least 25 years. The built-in smart battery supports intelligent ...

Equipped with a 60 W high-efficiency solar panel and a 20.8 Ah Li-ion battery, delivering continuous operation even in low-sunlight conditions. MPPT charging maximises efficiency, and the system ...

Learn how to install and configure the VIGI C540-4G Intelligent Solar Power Supply System with this comprehensive user manual.

Control devices centrally, monitor power statistics, get low-battery alerts, update firmware, and reboot the system via the mobile app. Enjoy peace of mind, no matter your location.
