Featuring a split PCS and battery cabinet design, it offers 1+N scalability and integrates seamlessly with solar PV, diesel generators, the grid, and utility power.

Our mid-tier Battery Energy Storage Systems (BESS) reduce generator run time which decreases the fuel consumption and noise on site, helping you save on both emissions and on costs. They also ...

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

Offers a versatile power solution adaptable to various industries, including construction, events, and remote operations. By integrating the 500 kWh Battery Container into your operations, you can ...

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

In this guide, we've compared 10 commercial solar battery storage systems available in the UK in 2026 so you can find the solution that best fits your needs and budget.

MEGATRONS 500kW Battery Energy Storage Solution is the ideal fit for commercial applications. Utilizing Tier 1 LFP battery cells, each commercial BESS is designed for a install friendly plug-and ...

Both the 300kW & the 500kW enclosures have optional PV MPPT input making it easier and quicker to complete your renewable energy project. Multiple functionality modes allow simple switching ...
