How can Bess help Vietnam achieve energy transition objectives?

Beyond grid stabilization, BESS plays a pivotal role in advancing Vietnam's energy transition objectives. By effectively managing energy supply and demand, BESS contributes significantly to achieving targets for renewable energy adoption and diminishing reliance on fossil fuels.

How can government support energy storage in Vietnam?

Government support through policy reformations, training and upskilling programs, well-planned roadmaps, awareness campaigns, and other initiatives can further attract private investment and international support.

Emulating Vietnam's Strategic Approach to Energy Storage

Will Bess be Vietnam's first megawatt-scale stationary Bess project?

While it is not Vietnam's first megawatt-scale stationary BESS project to date, the companies involved claimed it is the first such project to leverage third-party investment in battery storage to reduce electricity costs for a private customer. Resort operator VinPearl will pay no upfront cost for the equipment Marubeni owns.

Does Ami AC renewables have a partnership with Honeywell?

Ho Chi Minh City, 09 May 2023 - AMI AC Renewables, through its subsidiary, AMI Khanh Hoa, signed a memorandum of understanding with Honeywell to collaborate on a 7.5 MWh battery energy storage system (BESS) pilot project in Khanh Hoa, Vietnam.

With a profound legacy of 61 years in the electricity sector, PC1 Group takes pride in pioneering BESS research and implementation in Vietnam. Our integrated solutions combining rooftop solar panels ...

Vietnam's Revised Power Development Plan 8 (PDP8), approved in April 2025, marks a significant shift toward renewable energy and energy storage to achieve net-zero emissions by 2050.

This project was delivered for a manufacturing enterprise in Vietnam and features a lithium iron phosphate (LiFePO₄) battery energy storage system (ESS). The system enables renewable energy ...

Marubeni Corporation, through its subsidiary Marubeni Green Power Viet Nam, is also entering the battery storage space. It has launched a demonstration project in partnership with ...

By leveraging innovative solutions and collaborations, the project contributes to diversifying the nation's
