Versatile configuration: use 30kW/80kWh as a basic build block to build up a larger system. Application: Commercial and industrial facility power back up such as office building, warehouse, company data ...

Are you interested in dynamic peak shaving, Time of Use or back-up ...

Are you interested in dynamic peak shaving, Time of Use or back-up power applications, either on-grid or off-grid? Then the TS-I HV 80 E is sure to impress you.

The GSL Energy high-voltage battery cabinet GSL-HV51200 is a robust energy storage system with capacities from 80kWh to 140kWh, using an innovative HESS battery structure.

The GSL Energy high-voltage battery cabinet GSL-HV51200 is a robust ...

Our three-phase 100KW inverter used with LiFePo4 battery in the off-grid solar power system: provides a sustainable and cost-effective solution for powering large-scale applications off-grid.

This combination system is ideal for self-consumption optimization, peak shaving, and reliable backup power, making it a preferred choice for factories, schools, commercial complexes, and small ...

The Sunplus SP-eBank F Series delivers a high-performance, integrated solution by combining a C& I Hybrid Inverter with a Battery Cabinet ranging from 80kWh to 107kWh. Ideal for commercial and ...
