As we barrel toward 2025, North Asia's energy storage landscape is evolving faster than a viral TikTok dance. Whether it's China's 800kV ultra-high voltage storage corridors or Japan's ...

The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical energy storage facility in Central Asia, was successfully connected to the grid ...

As of July 2025, the total scale of Trina Energy Storage's large-scale energy storage projects under construction in the Asia-Pacific region (excluding China) has exceeded 2.4GWh, with projects ...

Construction is progressing, with Unit 2's spiral case and stay ring installed in April 2025. Energisation is planned for the second half of the year, marking a major step in Australia's clean ...

The megawatt iron-chromium flow battery energy storage project in north China's Inner Mongolia Autonomous Region uses a new energy storage application technology utilizing ...

Located 41 kilometers east of Kashgar, Xinjiang, the project spans 119,000 square meters and represents a total investment of approximately CNY 1.6 billion (\$222.9 million). The facility ...

Final Thought: As North Asia pushes toward carbon neutrality, energy storage isn't just an option - it's becoming the backbone of smart power management. Whether you're upgrading factories or ...

TAIPEI (Taiwan News) -- Asia Cement said Friday it is investing NT\$2.52 billion (US\$84 million) in a large-scale battery energy storage project in Kaohsiung's Siaogang District, aiming to ...
