Building on the SigenStor design concept, SigenStack is tailored for larger C& I projects, combining a hybrid inverter and battery pack BAT 11.0. The inverter series offers a range of power options, ...

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

RedEarth has a range of Australian-made, on-grid, off-grid, and hybrid energy storage systems. Plus, our energy storage systems are scalable, so you can be confident you're getting a solution that best ...

Designed for demanding industrial applications, off-grid setups, and solar-powered infrastructures, it combines a 100kW hybrid inverter, 207kWh of scalable LiFePO4 batteries, and intelligent EMS in a ...

Hicorenergy provides safe, reliable, and scalable lithium-ion energy storage solutions for both households and businesses, supporting Australia's clean energy transition.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Explore how Trinasolar powers a net-zero future in Australia & beyond with our solar modules, tracking & mounting systems, and energy storage solutions.

The 100kW/215kWh Battery Energy Storage System is designed for industrial and commercial energy storage system applications.
