What does bluenova do?

WHAT WE DO... BlueNova supplies energy storage solutions to energy industry professionals. Our collective product offering mostly consists of batteries (but also pre-configured battery systems, as well as supporting electronic devices) currently centered around, but not necessarily limited to, the lithium iron phosphate (LiFePO4) battery chemistry.

What kind of batteries does bluenova offer?

Our collective product offering mostly consists of batteries (but also pre-configured battery systems, as well as supporting electronic devices) currently centered around, but not necessarily limited to, the lithium iron phosphate (LiFePO4) battery chemistry. WHY Choose BlueNOVA?

Why should you choose bluenova?

WHY Choose BlueNOVA? BlueNova offers premium quality lithium iron phosphate cells merged with intelligent battery management systems to provide resilient energy storage solutions for the modern world.

What makes bluenova unique?

BlueNova is committed to advancing sustainable renewable energy solutions, now and into the future, through our collective effort towards continued innovation. This is the defining factor that sets us apart from our peers.

WHAT WE DO... BlueNova supplies energy storage solutions to energy industry professionals.

108AH, 13V, Blue Nova Lithium Battery Offering a drop-in solution to replace lead acid batteries. These batteries can be used individually or assembled in series to create up to a 48V system.

Product Features Ultra-reliable Lithium Iron Phosphate (LiFePO4) technology Integrated battery management System (BMS)
