Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

Will Brazil's first capacity reserve auction affect battery energy storage?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Is Brazil ready for utility-scale energy storage?

"The demand for utility-scale energy storage in Brazil is poised to grow exponentially as the country continues its transition to renewable energy and strengthens its grid infrastructure," said Marcelo Rodrigues, Sales & Innovation VP of UCB.

Earlier this year the country opened a public land bidding auction seeking 13GWh of standalone energy storage projects across four regions - Arica and Parinacota, Tarapaca, ...

Brazil's federal government will launch its first major battery energy storage system (BESS) tender in April 2026, targeting 2 GW (~8 GWh) of capacity and mobilizing over USD 2 billion ...

Find out how the partnership aimed at scaling the Brazilian energy storage market will transform the renewable energy landscape.

The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar.

From pv magazine Brazil. Brazil's Ministry of Mines and Energy has announced plans to open a public consultation for a capacity reserve auction focused solely on battery storage, set for 2025.

Brazil Power Grid Energy Storage Equipment Procurement Project
