-----

Ekü Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.

The government announced this morning that Ekü Energy will develop, build and operate the battery energy storage system (BESS), which at 250MW/500MWh would be one of the largest of ...

Energy Storage is critical for ACT's 100% renewables and net-zero target. Helps to put downward pressure on electricity price paid by ACT consumers. Reduces the need for electricity network ...

The Australian Capital Territory (ACT) government and Ekü Energy have commenced construction of the Williamsdale Battery Energy Storage System (BESS), a 250 MW/500 MWh ...

The large-scale battery energy storage system (BESS) will provide at least 250 megawatts (MW) of power. This is enough energy to power one-third of Canberra for two hours ...

The 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) will store enough renewable energy to power one-third of Canberra for two hours during peak demand periods, ...

Ekü Energy, the UK battery platform of Macquarie's Green Investment Group (GIG), has received development approval for a 250-MW/500-MWh battery energy storage system (BESS) ...

Explore the Williamsdale Battery Energy Storage System (BESS) project by Ekü Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, storing ...
