---

Xinhonghua produces cold bending roll forming equipment such as photovoltaic bracket machines, C/Z purlin equipment, roof panel and floor deck forming systems.

We are a professional manufacturer dedicated to cold bending equipment, our engineers can customize different equipment according to the needs of different customers.

With over 20 years professional experience, we have been the TOP 3 manufacturer and exporter of HIGH QUALITY cold roll forming machines in China. We are an ISO9001 approved company, and ...

Photovoltaic bracket cold bending machine This machine is suitable for the cold bending forming production of photovoltaic brackets: ? Maximum forming speed: 30 meters per minute; ? ...

To investigate the mechanical performance and failure characteristics of photovoltaic support bracket and connections with the cold-formed thin-walled high strength steel, 55 specimens ...

The fully automatic cold bending forming machine for photovoltaic supports is an advanced piece of equipment. It efficiently cold - bends and shapes metal materials into precise photovoltaic brackets.

Combining strength and precision: Through the cold-bending forming process, the product not only ensures structural strength but also features extremely high dimensional accuracy.

The solar bracket roll forming machine is a special cold-roll forming equipment designed for processing profiles of solar photovoltaic (PV) brackets.
