At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it's needed. Built for multi-industry use, our systems replace ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

- Empower your business with a 100KW solar system that captures natural sunlight and converts it into clean, sustainable energy. - Benefit from a high-capacity 200KWH LiFePO4 battery, delivering ...

Our containerized Battery Energy Storage Solution (BESS) provides a fully customizable and scalable power solution to meet your specific energy needs. Whether you need grid balancing, mini-grid ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Exencell offers cutting-edge 20ft container BESS solutions with lithium-ion technology. Our container battery energy storage systems, including DC-coupled options, ensure efficient and reliable energy ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.
