US utility company Alliant Energy has moved forward with a long-duration energy storage (LDES) project based on Energy Dome's carbon dioxide-based (CO<sub>2</sub>-based) technology.

This article highlights the top 10 battery manufacturers in Cuba, including those that provide domestically produced and imported battery technologies. These manufacturers play a crucial role in supporting ...

Decentralized systems with renewable energy and storage could have reduced Cuba's dependence on imported fuels and prevented widespread outages. Despite abundant wind and solar ...

You'd think an island blessed with year-round sunshine would've cracked the code on renewable energy storage. Yet Cuba's power outages increased by 23% in 2023 despite adding 450MW solar capacity.

The plan anticipates one thousand megawatts of solar energy by 2025, but without installed batteries, which prevents meeting nighttime demand and limits the impact in the face of ...

Cuba aims for solar energy growth, but lacks essential battery storage. Explore the challenges and solutions. Act now for change!

Enter energy storage - the Swiss Army knife of modern power systems. While Cuba's current storage capacity could fit in a Havana parking garage, the 2024 blackout became the ultimate ...

Summary: The Santiago de Cuba Battery Energy Storage Project stands as a pioneering initiative to stabilize Cuba's power grid through advanced lithium-ion battery systems.
