Our containerized generator enclosures offer unmatched flexibility, durability, and customization options, making them the ideal solution for housing and protecting your valuable generator equipment.

Whether it's simple, empty enclosures designed to house customer equipment, 24" Wide x 84" Long Utility Substations critical to community infrastructure, or offshore crane operator cabs working in the ...

We manufacture our enclosures, UL listed fuel tanks, and custom accessories in house. We also conveniently offer chassis/ trailers to add on to your generator package.

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

From standard ISO containers to acoustic generator enclosures, our experienced Caterpillar engineers will work with you to design a custom, assembled enclosure for your diesel or gas generator set.

Each energy storage container is customized according to system capacity, equipment configuration, and site conditions. No fixed templates, only practical solutions.

As a leading power generation container room manufacturer, we've seen firsthand how customized solutions are becoming the backbon. Imagine a Swiss Army knife - compact, adaptable, and ready ...

Each container house is fully customizable, including layout and size (20ft, 40ft, combined containers, or multi-story containers), interior finishes, insulated walls and roofs, and smart home integration.
