The Solar Container - Mobile Solar System is a fully integrated, transportable renewable energy solution designed to deliver clean, reliable power anywhere in the world.

Built inside a durable container, this mobile solar unit unfolds quickly to generate high-efficiency solar energy for off-grid projects, emergency operations, construction sites, mining camps, rural villages, ...

Standalone solar system provides a residential or a business owner with a reliable supply of power during the daytime that can be stored in battery banks or combined with existing diesel generators.

Our team was onsite to present the value of our SolarContainer, demonstrate real-world use cases and hold in-depth discussions about how our modular energy solutions can support national strategies for ...

Our Battery Energy Storage System (BESS) can be operated under on-grid and Off-grid operation mode. The BESS system is controlled to cut off the grid connection within 10 seconds and switch to ...

Break free from grid dependency with our comprehensive off-grid solar solutions. Perfect for remote locations, backup power, and complete energy independence across the UAE.

With our innovative solutions for Solar panel installation and maintenance, see why customers like Dubai Municipality and ADNOC trust OffGrid Solutions with their solar projects.

We have delivered hundreds of projects covering a wide range of applications, including demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid ...
