Ahead of a high-level European Solar PV Industrial Alliance meeting with Commissioner Thierry Breton, 429 European solar companies have joined a call to EU authorities to take trade ...

This paper, which is based on new trade theory with substitutes, examines how antidumping and countervailing policies (ACPs) from the EU and the USA impact Chinese ...

An anti-dumping investigation can be initiated in response to a complaint lodged by European manufacturers affected by dumped imports or at the request of an EU country.

On September 6th 2012, the European Commission started an anti-dumping proceeding against China in order to investigate if the prices of Chinese manufactured crystalline photovoltaic wafers, cells and ...

On 2 December 2013, the Council imposed anti-dumping (3) and countervailing measures (4) on crystalline silicon photovoltaic modules and key components (i.e. cells) originating in or consigned ...

European solar manufacturers are struggling to break even and accusing China of unfair trade practices, but the European Commission gives priority to climate goals and renewable energy ...

By Regulation (EU) No 1238/2013 (3) the Council imposed a definitive anti-dumping duty on imports of crystalline silicon photovoltaic modules and key components (i.e. cells) originating in or consigned ...

Furthermore, coupled with the impact of trade barriers and tariffs, the EU has imposed provisional anti-dumping duties on photovoltaic modules since June 2025, with rates reaching as ...
