Using this information system, you can submit your application, proposal or complaint to the Joint-Stock Company «National Power Grid of Uzbekistan»

On December 29, the Tashkent Chirchiq Energy Storage Project in Uzbekistan funded and developed by China Energy Overseas Investment Co., Ltd. achieved full-capacity grid connection.

The Head of State was briefed on measures to ensure the stability of the energy system in Tashkent. The capital continues to experience population growth and active construction. Over the ...

At the "Powering the Future" forum in Tashkent, Uzbekistan unveiled 42 renewable, storage, and grid projects, with international partners supporting a nationwide energy transformation.

The president also commissioned the operation of 42 new renewable generation, storage, and grid facilities, valued at \$11bn, at the "Powering the Future" forum held in Tashkent, Uzbekistan.

A crucial aspect of this plan is ensuring that regions facing energy deficits can receive supplementary power from other areas. The government plans to invest \$4 billion in the National ...

The city of Tashkent is growing, and so is the population in it. And the electricity consumption needs are also increasing there. If the distribution network fails to integrate growing consumption with us, that ...

Due to population growth and active construction in Tashkent, the city's power supply system is undergoing continuous modernization, including repairs of substations and transformers.
