At Trans-Matic, we leverage our expertise in precision metal stamping to deliver reliable, long-lasting parts essential to solar, wind, and energy storage applications.

Stamping Bending Processed Energy Storage Box System with Lithium Battery Case Module Aluminum End Plate

Discover precision metal stamping solutions tailored for renewable energy requirements. Enhance your production efficiency with our expert services.

Complementing our core trade, we provide essential value-added processing services such as leveling, slitting, stamping, and precision laser cutting. Our long-term partnerships with numerous large-scale ...

Keats Manufacturing is a top provider of precision metal stamped components, wire formed parts, and assembly services for renewable energy components.

If you are involved in renewable energy product manufacturing and are seeking a supplier for metal stamping components, feel free to contact us. We offer a full-service solution, ...

We specialize in using metal stamping and fabrication to provide quality hardware and housings for energy equipment of all kinds, especially when it comes to 100% custom parts.

The secret lies in energy storage precision stamping parts. These tiny yet mighty components are the unsung heroes in lithium-ion battery packs, thermal management systems, and ...
