Who is ESS Tech?

Check back often for upcoming events ESS Tech, Inc. (NYSE: GWH) is the leading manufacturer of long-duration iron flow energy storage solutions. ESS was established in 2011 with a mission to accelerate decarbonization safely and sustainably through longer lasting energy storage.

What is ESS Technology?

ESS technology is field-tested and assessed by Munich Re, who underwrites our 10-year battery module performance warranties. The Energy Warehouse reduces or eliminates the need for hazmat permits for transport, HVAC, fire suppression and end of life disposal planning.

What is ESS & how does it work?

ESS solutions capture excess energy when it is available to provide uninterrupted power when it's not. With up to 22 hours of energy storage, ESS' scalable, flexible solutions enable intermittent energy to provide baseload power to meet growing energy demand from AI data centers and an increasingly electrified society.

What does ESS Tech stand for?

The ESS Tech, Inc. (ESS) patented electrode design and control system allow the Energy Warehouse to operate at high efficiency over an unlimited number of deep charge and discharge cycles with no degradation or capacity fade. ESS products are engineered for a 25-year design life with minimal annual operations & maintenance (O& M) requirements.
