---

The utility model aims to provide a flexible photovoltaic bracket and aims to solve the problem that in the prior art, a photovoltaic plate on a guy cable cannot be subjected to angle...

2?Compared to traditional brackets, flexible brackets can achieve larger spans and higher clearances, thereby increasing board capacity and power generation efficiency.

Should you require customized, wish to inquire about pricing, or seek additional information, we invite you to get in touch with us. Photovoltaic flexible bracket design allows the photovoltaic system to ...

The photovoltaic fixed and adjustable bracket consists of a bracket structure and an adjustment device, which can be adjusted according to the angle and intensity of sunlight.

It specializes in the design and production of solar photovoltaic ...

BEBON is a high-tech enterprise specializing in the R& D, design, production and sales of distributed photovoltaic brackets, fixed photovoltaic brackets, flexible brackets and tracking brackets.

The load-bearing cables of flexible photovoltaic brackets use flexible components such as steel strands. Such flexible components have the advantages of large elastic modulus, low ...

It specializes in the design and production of solar photovoltaic installation structures, including roof installation systems, ground installation systems, tracking systems, BIPV, flexible systems, garages, ...
