What is IP54 rated cabinet?

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span. The pre-integrated cooling module delivers either 3.5 or 7.0kW of scalable cooling capacity while allowing for full rack U-space utilization for increased IT deployment.

Is IP54 suitable for outdoor applications?

IP54, just like our other IP enclosures, is suitable for outdoor applications because it is protected against low-pressure water sprays from any direction. However, keep in mind that these enclosures are not entirely dust-tight and waterproof, so very dusty or underwater environments may be too harsh for them.

Can a custom enclosure meet the IP54 standard?

If you are looking for a custom enclosure that meets the IP54 standard, our professional designing and development team can help you a lot. Metal finishes can be customized including aluminum alloys, stainless steel, galvanized steel, and carbon steel, to meet your application requirements.

What is a stainless steel IP54 enclosure?

Stainless Steel IP54 Enclosure KDM manufactured IP54 enclosure to provide top-quality, easily customized cabinets that will perform well in your application. At KDM, our range of IP54 enclosures features a variety of different materials such as aluminum, carbon steel, and stainless steel.

Cykeo's solar-powered RFID Inventory Tool Cabinet enables 5-second audits for remote sites. Features 160W solar, Android 7.1, 4G & extreme temp operation for oil/energy/mining sectors.

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...
