We are proudly supplying the industries of the Gas and Oil fields, Aero Space, Air Craft, Automotive, and the Electric Vehicle industries, for structure and building facades. Most of these high quality panels ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

The adjustable stand helps maximize solar capture from dawn to dusk, and the panel can power a range of USB-C PD devices or larger power stations via MC4 outputs.

GOP German Offgrid Power offers efficient solutions wherever the connection to a power grid is associated with high costs and expenses or diesel power generators are expensive transitional ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Entdecken Sie unser Sortiment an innovativen Solarmodulen auf Schiffscontainern, die Ihren Bedarf an erneuerbarer Energie mit maximaler Effizienz und Zuverlässigkeit decken. Vormontierte Container ...

This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural factories, ...

Sun2Fold offers an ideal solution for flexible and self-sufficient power generation from green energy resources for a variety of different purposes. After an easy and efficient installation, the system can ...
