How long does it take to fit a hive EV charger?

Your installer will review your details and send you a personalised quote to fit your Hive EV charger. Accept your quote, upload photos of your home and your installer will start planning for the big day. Our approved experts will fit your EV charger on a day that suits you, usually within 4-5 hours.

Does Hive have power+?

We've partnered with eco-tech manufacturers to make sure their devices connects simply and seamlessly to the Hive app - just like the rest of your Hive home. Power+ is only available for customers with a compatible EV charger and a British Gas electricity tariff with a smart meter in credit mode.

How does hive work?

SHOP NOW Turn your home into a smart home with Hive. A comprehensive range that encompasses smart heating, security, lighting and electrical solutions to provide a whole home system. Products are connected via the Hive Hub, enabling them to be linked and controlled via the Hive App from your smartphone, tablet or computer device.

Who installs EV chargers?

Trusted in millions of homes nationwide, British Gas are experts in installing the latest green tech - including EV chargers. Their network of approved installers will get you set up in no time. Having fitted over 60,000 of them, ChargedEV are one of the leaders in EV charger installations.
