Our program model combines Results Based Funding (RBF) from our Non-profit partner Let's Share the Sun, with customer financing from our non-profit partner Kiva to effectively deliver and install solar ...

In 2022, Honduras' energy mix was dominated by oil, constituting 54.9% of the total energy supply, followed by biofuels and waste at 32.2%. Modern renewables like hydro, solar, and wind, excluding traditional biomass practices like burning wood or agricultural residues, accounted for 12.9%. In 2024, the country had 849 MW of installed capacity in hydro power. There has be...

Descubra cómo su empresa en Honduras puede aprovechar la exoneración del 15% de ISV y beneficios en ISR al invertir en energía solar. Guía completa sobre el Decreto 70-2007 y tramites SEFIN.

ENEE has failed to pay a feed-in premium promised to solar plants commissioned by July 31, 2015, and this has undermined confidence. There also exist formal barriers to renewables development.

Specifically, private producers are benefiting from fiscal incentives, tax exemptions, and the recognition of 10 percent of the short-term marginal cost per kWh as a premium.

Photovoltaic projects will have a special incentive of three cents per kilowatt-hour (kWh), which is on top of the 10% established by the Law on the Promotion of Electricity Generation using Renewable ...

Explore Honduras's Zonas Libres for solar module export. Learn about tax exemptions, duty-free US access via CAFTA-DR, and logistical benefits for nearshoring.

Si bien Honduras aún está en proceso de ampliar y consolidar los incentivos fiscales para la energía solar, estas iniciativas ya están demostrando su impacto positivo.
