AISWEI, formerly known as SMA's Chinese subsidiary, is a high-tech enterprise specializing in developing and manufacturing solar solutions, including inverters, energy storage ...

Today, AISWEI is a leading R& D and manufacturing company focusing on clean energy, delivering a broad portfolio of photovoltaic and hybrid inverter products, EV chargers, and smart ...

We have developed a wide range of reliable, affordable and easy-to-use photovoltaic inverters: one- and three-phase solar string inverters for residential and commercial solar power systems.

AISWEI introduced new residential inverters, micro inverters, and hybrid inverters for specific regional markets. High-voltage and low-voltage batteries for energy storage were unveiled.

Economically priced and with efficiency of up to 98% and more, our three-phase solar string inverters are the perfect choice for social housing, communities and investment companies.

AISWEI's Solplanet inverters are manufactured in compliance with high international quality standards, are easy to install and user-friendly to operate. The production capacity amounted to 10GW in 2022 ...

AISWEI secured the sixth position with outstanding performance and strong momentum, once again demonstrating the global competitiveness of China's new energy enterprises. Among the ...
