With the latest system coming online on 19 June, MET Group and Dunamenti Power Station are stepping up their support for Hungary's shift to cleaner energy. Europe sees rapid ...

The MET Duna energy storage unit consists of 48 battery containers and 240 inverters that were manufactured by Huawei Technologies. It received over \$11 million in state funding to build ...

The Solarity - Innovart 10 MWh Battery Energy Storage System (BESS) project in Hungary is a story of global collaboration, technical precision, and overcoming complex logistical challenges.

Met Duna Energiatároló, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a 40 MW / 80 MWh battery storage at the ...

Touted as one of the largest in the European Union, the project signals Bulgaria's serious intent to modernize its grid and support renewable energy integration.

MET Group put into operation a battery electricity storage plant with a total nominal power output of 40 MW and a storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series ...

Located in the northeast of Hungary, the project construction is currently underway, with completion expected in the first quarter of 2026.

The current storage capacity of all BESS units on site would be sufficient to supply the entire decorative and public lighting needs of Budapest for 4 hours. The supplier of the equipment is ...
