Our market-leading control architecture constantly monitors and drives plant productivity, maximizing asset utilization, process efficiency and production quality.

Electrical protection of the battery circuit by means of an automatic switch with command sent to the door.

There are three primary types of IP66 battery boxes--each offering unique advantages based on material, durability, and customization capabilities. Below is a detailed comparison of plastic, metal, ...

With IP55 (battery) / IP66 (inverter) ratings, the SAJ CHS2 hybrid energy storage system guarantees strong environmental adaptability even in outdoor installations.

Safe & Reliable A+ grade cells with automotive-grade standard Five-level safety design 300m AFCI detection with 0.5s rapid shutdown Support three-phase unbalance output IP66 for ...

The Battery Cabinet is an all-in-one energy storage solution featuring LFP (lithium iron phosphate) batteries, liquid-cooling technology, fire suppression, and monitoring systems for safe and efficient ...

By integrating a high-performance hybrid inverter with scalable lithium battery modules, it ensures efficient energy conversion, flexible storage capacity, and long-term reliability.

With LFP battery technology, advanced EMS and PCS, it enables real-time monitoring, smart schedule, and seamless integration with solar PV, EV charging, and backup power. Ideal for peak shaving, ...
