They are efficient, environmentally friendly, and economical, offering industrial and commercial users an unprecedented energy management experience. Choosing industrial and commercial photovoltaic ...

CHAM has been focus on new energy core technology for 20 years, providing customized products and services to customers with its professional pre-sales and R& D teams.

single cabinet has a variety of U-position and cooling capacity specifications, and can be combined with multiple cabinets to meet the needs of diverse application scenarios.

Imagine having a retractable energy storage cabinet that moonlights as a weather-resistant superhero during installation and transforms into a compact powerhouse afterward.

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

This product integrates cooling, IT computing, and software into one unit. It can be directly deployed in an office environment without the need to build a dedicated server room.

It uses advanced liquid cooling technology to maintain optimal battery temperatures, ensuring high efficiency and longevity. The cabinet is designed for outdoor use with dust and rain protection, and it ...

Featuring liquid-cooling DC battery cabinet, this system excels in performance and efficiency. Its design optimization slashes lead time by 50% compared to traditional Battery Energy Storage System ...
