---

Workers from CHN Energy Inner Mongolia Company dedicated their time and effort to transform the desolate landscape into a remarkable "blue ocean" of photovoltaic panels. After more ...

An aerial drone photo taken on Sept. 2, 2025 shows workers installing photovoltaic panels at a new energy base in Kubuqi Desert, north China's Inner Mongolia Autonomous Region.

The 3-million-kilowatt photovoltaic power station project in the Ordos coal mining subsidence area of Inner Mongolia, constructed by the CHN Energy Investment ...

Inner Mongolia hosts China's largest concentration of utility-scale PV plants, including the Great Solar Wall, a massive cluster of PV projects in the Kubuqi Desert. The site is expected to...

The Chinese PV manufacturer has unveiled ambitious plans to build a vertically integrated factory in China's Inner Mongolia region, which will be powered by a mix of solar and wind coupled with on-site ...

Once defined by arid wastelands and ecological degradation, the Kubuqi and Ulan Buh deserts in Inner Mongolia are now home to vast expanses of solar panels -- a transformation that's ...

China has launched an ambitious project known as the "Great Solar Wall" in Inner Mongolia, which by 2030 will generate 48 billion kWh of clean energy annually for the Beijing-Tianjin ...

Within the solar module factory of Inner Mongolia Tiansheng New Technology Co Ltd, located in Jungar Banner's Dalu industrial park, clusters of photovoltaic panels shimmered in bright ...
