The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

The new publicly owned enterprise "Energy Storage Corporation (ESC)" will operate as a joint-stock company with the Republic of Kosovo as its sole shareholder, and during the 5-year ...

Discover how Kosovo's groundbreaking energy storage project is revolutionizing renewable energy adoption while addressing grid stability challenges.

Kosovo intends to build the first battery energy storage system (BESS) in the region, which will have 170 MW of capacity and come online in 2028, a senior government policy advisor told Montel on Thursday.

Aims to strengthen the technical and administrative capacity of Kosovo's energy regulators. It also supports the policy and institutional reforms required to create a stable and effective framework for ...

Kosovo's storage revolution won't happen overnight, but the pieces are falling into place. With the right mix of policy support and tech innovation, this could become Europe's next clean energy success story.

Fast forward to 2025, and the country is rewriting its energy script, one lithium-ion cell at a time. While Kosovo doesn't yet have homegrown Tesla-like giants, its storage landscape is buzzing ...

Energy Storage Project: The objective of the Energy Storage Project is to support Kosovo's energy security and transition to a cleaner energy future, as reflected by: (1) usage of energy storage ...
