General Information 1.1 Getting start This manual is for Galleon 10K (L)~30K (L) tower UPS. It can help service person perform the basic maintenance and repair service.

An Uninterruptible Power Supply (UPS) is essential for ensuring continuous power to critical equipment, such as computers, servers, and medical devices, during power outages or fluctuations.

Who this is for An uninterruptible power supply, or UPS, is basically a surge protector, battery, and power inverter -- which turns the battery's stored energy into usable power -- in one.

An uninterruptible power supply (UPS) helps prevent sudden shutdowns, data loss, and hardware damage by providing backup power when your main electricity fails.

Besides providing constant voltage, the power supply also limits the current flowing into batteries and therefore protects and prolongs the life time of charged batteries.

Shop Staples" collection of battery backups and uninterruptible power supplies (UPS) to protect your data and technology.

LADIS is Hangzhou blue Electronics Co., Ltd. Hangzhou blue brand and company was founded in 2001, is committed to providing energy efficient power solutions to help customers better manage electricity.
