How much does a LONGi Solar System cost?

Longi solar panels come with a 10 years product warranty and 25 years of performance warranty. How much does a Longi solar panel system cost? A 6.6kW system with 18 X 370w panels and a 5kW Growatt inverter will cost around \$4200 for a standard installation in Brisbane; whereas with a Fronius inverter it will cost around \$5300.

What kind of solar panels does Longi offer?

In its Hi-MO 4, LONGi offers 60 and 72 half-cut solar panels and all-black solar panels with high output power ratings from 355W to 460W. Panels in this series are offered with residential installations in mind. They are also suited in mountainous regions and areas where handling modules can be difficult.

Who is LONGi Solar?

LONGi Solar is a solar company headquartered in Shaanxi, China that was established in 2000 and has an annual operating revenue of 8.41 billion USD. It supplies more than 30 GW of high efficiency solar wafers and modules worldwide, about a quarter of global market demand.

Where are LONGi Solar panels made?

Made in Vietnam and Malaysia. LONGi's LR4-60HI313 345~365M solar modules efficiency ratings range between 18.5% and 19.5% putting them on the higher end of average solar panel efficiency. The Hi-MO 4 series has proprietary Smart Soldering Technology with improved 9-wire bus bar for enhanced electron flow.

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the ...

Growatt inverters Growatt is a well established global inverter manufacturer. They offer the perfect combination of quality and affordability, across a wide range of models to fit various PV ...

LONGi module product model comparison to help you quickly make product selections.

In-depth review of the LONGi Solar 360W solar panel covering ...

Learn how to choose solar panel longi models with high efficiency, durability, and value. Compare types, specs, and top models for your solar project.

What is the maximum system voltage for Longi modules? (LONGi modules maximum system voltage is

DC1000 V/DC1500 V---actually system voltage is designed based on the selected module and ...

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

How to calculate VOC in a Longi module? (LONGi modules maximum system voltage is DC1000V/DC1500V---ac-tually system voltage is designed based on the selected module and ...
