What is a Tesla Powerwall?

The Tesla Powerwall is a lithium-ion energy storage solution designed to charge using solar power or energy from the grid. When paired with solar panels, the system directs solar energy to power your home's appliances. Any excess solar energy not immediately used is stored in the Powerwall battery for later use.

How much does a Tesla Powerwall cost?

The Tesla Powerwall 3 costs about \$15,400 before incentives and taxes are considered. At \$1,140 per kWh of storage, the Powerwall is one of the most affordable home battery solutions available. The combination of its cost and popularity earned it the first place spot in our list of the Best Solar Batteries of 2025.

How do I get a Tesla Powerwall?

Be connected to a Tesla Certified Installer to get Powerwall. Once you provide your information with Tesla, a Tesla Certified Installer will inform you of the price and which Powerwall model is right for your home. How much is Powerwall 3?
