Designed for industrial and commercial use, the BESS-372K liquid-cooled battery system delivers reliable 372kWh capacity. Featuring virtual synchronous technology and robust safety, it's ideal for ...

The 372kWh LiFePO4 Solar Battery Storage Cabinet is a renewable energy commercial and industrial-scale intelligent energy storage system. Engineered with superior quality lithium iron phosphate ...

The liquid cooling system is equipped with modular fire protection and ...

It can be widely used in charging stations, buildings, factories and other scenarios to realize the functions of peak shaving, emergency power backup, and weak system pv power storage.

The liquid cooling system is equipped with modular fire protection and equipped with American standard special perfluorhexanone fire extinguishing agent to fully meet the fire protection requirements of ...

Our intelligent liquid-cooled temperature control technology is not just about keeping your solar power storage system at an optimal level - it's about reducing your energy bills, too!

372kWh energy in one cabinet and ensure long-termendurance. Optimal in-PACK duct design, achieve high-efficientcooling and low energy consumption. Over 8,000 times cycle life, excellent performance ...

HT InfinitePower is a professional supplier for 372kwh energy storage systems with Liquid Cooling System. We can accept OEM and ODM requirement.
