Custom fabrication of welded battery racks for ESS, EV, UPS, and telecom. Carbon/stainless steel, modular, powder-coated. ISO, CE, AWS certified.

With proper powder coating or specialized fire-resistant coatings, cold rolled steel battery enclosures provide cost-effective solutions for indoor industrial battery cabinets, telecommunications battery ...

Our engineering team specializes in designing and manufacturing custom racks and cabinets that meet the highest standards of safety and performance. If you have a project that ...

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field ...

NEMA 3R-rated, weather-resistant carbon steel enclosures are easily installed and assembled. Corrosion-resistant fans prevent Atlas lithium Powerwalls from reaching a maximum 120°F charging ...

LFP Battery Cabinet Modular design allows the system to scale out from 295 kW to 4.41 MWh. Fully equipped for rapid commissioning with support for truck transportation. Consistent quality ...

From high-protection outdoor cabinets to enclosures for telecom, power, and industrial use, we offer configurable options in structure, material, thickness, and surface treatment to ensure both ...

Imagine deploying battery cabinets in coastal areas only to find rust creeping across joints within 18 months. With 43% of renewable energy projects now located in corrosive environments (NREL, ...
