Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

This energy storage system is equipped with a fire suppression system of Novec 1230/FM200 for outdoor cabinet type energy storage. It can store energy with a minimum of 1 set and a storage ...

The IP55 protection level adapts to the harsh outdoor environment, which is perfectly suited to the needs of industrial and commercial energy storage.

Integrated all-in-one design allows for simple installation and reduces overall system cost. The 500kW / 1000kWh Containerized Energy Storage System is a high-performance, rugged power solution for ...

Flexible and Convenient: Modular PCS allows for linear expansion of battery units and bidirectional energy storage inverter units; it possesses independent charging and discharging control capabilities ...

The outdoor energy storage cabinet integrates modular PCS, energy management monitoring system, and distribution system. With modular PCS, it is easy to maintain and expand.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...
