With the opening of a first production unit for lithium-ion battery materials in Jorf Lasfar, COBCO has begun the creation of a strategic industrial ecosystem in Morocco dedicated to electric mobility and ...

On June 25, 2025, COBCO officially inaugurated the first phase of its cutting-edge integrated industrial complex for nickel-manganese-cobalt (NMC) precursor cathodes (pCAM) in Jorf Lasfar, Morocco.

Since 2024, Morocco's lithium battery industry has entered an explosive growth phase. Gotion High-Tech, a Chinese battery giant, followed up its \$6.4 billion investment in 2023 with an ...

From supporting Morocco's 52% renewable energy target by 2030 to enabling cost-effective storage solutions across Africa, Casablanca's lithium battery factories are reshaping the continent's energy ...

Chinese BTR Morocco is building a major lithium battery gigafactory, turning Morocco into a strategic hub for Europe and Africa's energy transition.

The parent company, COBCO, is Morocco-based and is the fruit of a partnership between Al Mada and China's CNGR Advanced Materials. Rabat - COBCO announced the inauguration of the first...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

In this regard, the country is emerging as a future regional hub for lithium and electric batteries, thanks to its agreements with the South Korean giant and world leader in energy storage ...
