What is an IP67 power supply?

Phoenix Contact's IP67 power supplies give engineers flexibility to design applications to meet their specific needs by replacing power supplies located in large, centralized control cabinets with power supplies mounted directly on the machine.

What is an IP67 enclosure?

IP67 enclosures are among the most protective types of electrical enclosures available today, with the ability to act as either indoor or outdoor enclosures, thanks to their durable weatherproof gaskets. Specifying an IP67 enclosure may be the right choice for you if:

What is a trio IP67 power supply?

With a dynamic power boost of up to 150% of the nominal current for up to 5 seconds, TRIO IP67 power supplies can provide the additional current needed for the starting of heavy or inductive loads. Currently, the TRIO IP67 power supplies are offered in single phase, 24V / 8A and 24V / 10A variants.

How do I install the IP67 power supply?

The IP67 power supply can be mounted in any direction without being susceptible to derating. The mounting flanges on the power supply are designed to make installation quick and easy. Local DC and AC OK LEDs on the front of the power supply as well as a DC OK floating signal contact make monitoring input and output power simple and trouble-free.
