Create a sustainable container home with this off-grid conversion kit. It includes solar panels, a water filtration system, composting toilet, and energy-efficient appliances. Perfect for eco-conscious ...

With low start-up current, minimized cycling, and extended compressor lifespan, these units provide reliable cooling with optimal energy efficiency, making them ideal for both off-grid and grid-connected ...

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance ...

An Off-Grid Solar Container delivered to the property before construction began. The container provided clean, consistent power throughout the entire build process--running saws, drills, welders, and site ...

As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go fully off grid with a few other add-ons, directly from Bob's Containers.

This off grid refrigerated shipping container is located in northern Ohio. It provides lighting inside the container and powers a DC Air Conditioner.

Our containers are designed to provide a turnkey solution for off-grid living or working, with all the features and amenities you need to live comfortably and sustainably.

Beyond mounting the solar panels on the roof of the container on delivery, NO wiring or assembly is required to have your own storage, living space or workspace ready in just a few hours.
