The Pole-Type Base Station Cabinet is an intelligent highly integrated hybrid power system, combining the communication base station problems with reliable energy.

The solution adopts new energy (wind and diesel energy storage) technology to provide a reliable guarantee for the stable operation of communication base stations.

Main categories: Outdoor Cabinets and Solution/Data Center and Solution/FTTX Products and Solution/Site Energy Solution, Renew Energy/C& I Energy Storage System and LiFePO4 Battery

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Introduce photovoltaic and wind energy to achieve low-carbon energy saving; Simple installation method, which can support various installation methods such as wall hanging, pole holding and flooring;

Discover our hybrid power solution for energy-powered outdoor communication. Maximize resilience with dynamic refrigeration and advanced battery management. Explore robust, corrosion-resistant ...

Highjoule base station systems support grid-connected, off-grid, and hybrid configurations, including integration with solar panels or wind turbines for sustainable, self-sufficient operation.

EK Solar Energy provides professional base station energy storage solutions, combined with high-efficiency photovoltaic energy storage technology, to provide stable and reliable green energy ...
