Flexible Expansion: Designed to support off-grid switching and photovoltaic energy charging, making it ideal for use in a wide range of environments, including commercial buildings, residential ...

Understand how outdoor cabinet energy storage systems can completely change off grid living by providing flexible and efficient energy solutions.

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Our outdoor cabinets with lock/hinged doors are suitable for housing multiple battery racks. The interior is air-conditioned by a cooling unit that is mounted on the side wall or door leaf.

Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, and ensure uninterrupted power.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

A logistics hub in Poland, for instance, deployed 500kWh modular cabinets to reduce peak demand charges, saving over EUR30,000 annually. These systems integrate seamlessly with existing ...

Designed for C& I project developers, EPC contractors, installers, and renewable energy integrators, the Wenergy ESS cabinet offers flexible capacity configuration and supports both on-grid and off-grid ...
