Enjoy fully customizable MET stations designed for utility PV plants. These modular weather stations integrate with multiple SCADA applications and hardware platforms.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Stay informed at your off-grid cabin with solar weather stations. Compare top 3 models featuring wireless monitoring, 30+ day battery life & storm alerts.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Harness solar power for accurate weather data on your off-grid farm. Our top 6 stations help you boost yields and achieve true self-reliance.

Whether deployed as a standalone microgrid or part of a larger portfolio, our containerized systems ensure rapid installation, guaranteed reliability, and the resilience needed for extreme environments. ...
