-----

In 2025, our mobile folding solar container solutions were deployed globally, providing reliable, low-carbon power for off-grid, grid-support, and flexible energy applications.

Explore independent solar solutions for remote living in Ottawa. Learn about our off-grid systems, tailored for sustained energy freedom and reduced environmental impact.

This medium solar power system will provide lighting for multiple shipping containers. The lights can be a string of DC LED A bulbs or 4" Vaportite DC LED fixtures which operate on a timer switch. The ...

Our containerised off-grid solar solutions are fully customizable, and our team of experts provides end-to-end support, from site assessment to installation and maintenance.

Beyond mounting the solar panels on the roof of the container on delivery, NO wiring or assembly is required to have your own storage, living space or workspace ready in just a few hours.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

An Off-Grid Solar Container delivered to the property before construction began. The container provided clean, consistent power throughout the entire build process--running saws, drills, welders, and site ...
