The factory specializes in customizing various aluminum profiles for photovoltaic use

Haomei aluminum extrusion profiles for photovoltaic and solar panel frames offer exceptional strength and efficiency, making them ideal for various renewable energy projects.

Aluminum profiles designed for solar mounting systems and PV structures. Factory production with stable quality, anodized finish, and OEM support for solar projects.

Whether for residential roofs, commercial buildings, or large industrial plants, our support systems for photovoltaic installations guarantee excellent performance, safety, and durability, offering easy ...

Explore high-quality photovoltaic aluminum profiles for solar panel frames and mounting systems. Durable, customizable, and built for efficiency. Shengxin Aluminium - trusted by global solar projects.

Our solar brackets includes statically-optimised profiles and pre-assembled components. light and strong aluminium alloy ENAW 6063, lightweight and stress-resistant

As a leading aluminum extrusion manufacturer in China, we excel in providing high-quality aluminum profiles specifically tailored for the solar panel mounting industry and other diverse applications.

Made from high-quality aluminum, our installation bracket profiles are built to withstand harsh weather conditions, ensuring the longevity of your solar panel system.
