---

Xinhonghua produces cold bending roll forming equipment such as photovoltaic bracket machines, C/Z purlin equipment, roof panel and floor deck forming systems.

Supplier highlights: This supplier is both a manufacturer and trader, offers sample customization, and has strengths such as local after-sales service and product certification. The positive review rate is ...

Photovoltaic bracket cold bending equipment specializes in producing metal brackets required for solar panel installation.

The photovoltaic seismic bracket forming machine is an automatic rolling forming production line specially designed and manufactured for building electromechanical engineering. The raw materials ...

High-precision forming: The machine ensures that the size, shape and hole position of each C-shaped steel are highly consistent. This consistency is crucial for rapid and conflict-free installation, avoiding ...

The fully automatic cold bending forming machine for photovoltaic supports is an advanced piece of equipment. It efficiently cold - bends and shapes metal materials into precise photovoltaic brackets.

Photovoltaic bracket cold bending machine This machine is suitable for the cold bending forming production of photovoltaic brackets: ? Maximum forming speed: 30 meters per minute; ? ...

It is a full automatic line to produce the solar photovoltaic bracket strut, which is a special bracket designed for placing, installing and fixing solar panels in solar photovoltaic power generation system. ...
