Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and battery energy storage containers.

We integrate research and development, production, and sales of lithium battery packs, serving solar energy, wind energy, intelligent charging equipment, and more.

The outer surface of the container is equipped with foldable photovoltaic panels, which can be folded up when not in use to reduce volume and weight for easy transportation and storage.

The 20ft Mobile Solar Container by HighJoule offers 80KW of solar power using high-efficiency 480W modules. With an industrial-grade build, it's an excellent choice for mid-sized, scalable off-grid or ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

80kWh LiFePo4 lithium battery and 30kW/40kW inverter all in one outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application ...

Marketing, Technical & Production team with More than 15 years experience in container manufacturing industry. Covering hundreds of special container type, we can provide professional solutions tailored ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...
