Jia Mao provides robust photovoltaic brackets and solar mounting systems. Our durable and easy-to-install solutions ensure secure and long-lasting support for all solar projects.

The solar photovoltaic bracket is a special bracket designed for placing, installing and fixing solar panels in the solar photovoltaic power generation system. The general materials are ...

The main materials of the bracket and base are made of high ...

The main components are made of hot-dip galvanized steel, with good performance of structure strength, stability and anti-corrosion, compatible with varied solar modules. Patented and certified ...

The main materials of the bracket and base are made of high-grade anodized aluminum AL6500-T5, and the surface is anodized, which has excellent anti-corrosion and anti-rust properties.

Solar photovoltaic bracket is a special bracket designed for placing, installing and fixing solar panels in solar photovoltaic power generation systems. The general materials are aluminum alloy, carbon steel ...

Material Selection and Exquisite Craftsmanship - The PV brackets from CHIKO are made of rigorously selected materials, such as corrosion-resistant aluminum alloy, high-strength carbon steel, and ...

Saving construction materials and reducing construction costs provide a basis for the reasonable design of photovoltaic power station supports, and also provide a reference for ...
